

RESPONSIBLE DISTRIBUTION® - POLICY

- ANCHEM is absolutely committed to the responsible distribution of chemical products and to the minimization of risk to the health of employees, customers, contractors and the public, as well as the protection of environment.
- As a member of Responsible Distribution Canada, ANCHEM will comply with The Distributor Code of Practice and the ethics of Responsible Distribution
- ANCHEM joins with other RDC members in their efforts to continually improve performance in protecting health, safety and the environment.
- All ANCHEM personnel are required to adhere to company policies and procedures and regulations such as, but not limited to, WHMIS, TDG and CEPA.
- ANCHEM will manage its business to ensure that recognized health, safety, Environmental standards and applicable legal requirements are met or exceeded.
- ANCHEM will train employees and communicate with customers, transporters, contractors and interested parties to promote the responsible distribution of chemical products.
- ANCHEM will evaluate health, safety and environmental effects and concerns before adding new products & services to its portfolio.
- It is ANCHEM's policy to only select suppliers and service providers who are in compliance with Responsible Care®, Responsible Distribution® or demonstrates willingness and ability to work with in similar guidelines.
- ANCHEM will not distribute products other than in conformance with the Responsible Distribution code.
